

WINTER COAT DRIVE

Give the Gift of Warmth to A Child in Need.

Millhill Child & Family Development helps more than 5,000 families each year in Greater Trenton improve their quality of life through educational, counseling, and family support services. One of the ways we provide support in the months leading up to cold winter weather is by collecting donations of new coats, scarves, gloves, and mittens for our children.

There is the opportunity to create a personal connection between your company and the families of Millhill, as your employees can be paired with specific children so they can know the gender and size of the child for whom they are purchasing a coat. Or you can let us know how many coats your organization would like to donate and we can let you know genders and sizes.

**For more information on how you can give the gift of warmth
Please contact:**
